MADE WITH SOUL

From perfecting the rotary engine and winning the Le Mans race the first time we entered it, to breaking the world record for the most-sold two-seater convertible in history, we are driven forward by the desire to defy convention. We believe that if you can imagine it, we can make it happen. This desire is the fuel behind everything we create and achieve and now, it has given us SKYACTIV TECHNOLOGY, 'KODO – Soul of Motion' design and countless other successes that were once considered impossible feats.

These pages show how striving to do what others cannot is not only rewarding but also integral to creating innovative, beautiful cars.

MAZDA3 HATCH

MADE WITH EXCELLENCE

NEXT-GENERATION MAZDA3, DRIVING IS BELIEVING

The next-generation Mazda3 represents the beginning of a new era for Mazda. A car that takes every element of design, performance and technology beyond anything that comes before. It's a drive you need to feel to believe.

CREATED TO MAKE A MOMENT LAST

The Mazda3 Hatch is a car designed to catch the eye and heart through the aura of its elegance and refinement. The evolution of Mazda's 'KODO – Soul of Motion' design philosophy sees light and shadow shift beautifully across the body. This, combined with the low roof line and wide stance, delivers a powerful presence.

BEAUTY BY SUBTRACTION

Every element of the next-generation Mazda3 Hatch has been created with the intention to further strengthen the connection between car and driver. A less-is-more approach has been followed to develop a cabin that's as beautiful as it is functional.

ENGINEERED TO EXHILARATE

The strict adherence to the philosophy of 'Jinba-Ittai' with the sense of a car and driver as one, has created a driving experience that's truly next-generation. G-Vectoring Control (GVC) Plus offers unprecedented levels of confidence inspiring controllability, while the SKYACTIV-G petrol engines deliver exhilarating performance.

THE EVOLUTION OF SAFETY

True peace of mind is at the forefront of the next-generation Mazda3. A higher concentration of ultra-high tensile steel reinforces the chassis, while a newly developed knee airbag for the driver's seat is not only a first for Mazda, but comes as standard equipment. Paired with the latest in safety technology, like Dynamic Stability Control (DSC), every grade of the next-generation Mazda3 takes safety to another level.

AN INTUITIVE EXPERIENCE

The next-generation Mazda3 consists of intuitive features that transform your drive into a truly effortless one. The headlamp levelling system, which also complements the vehicle's safety features, adjusts the inclination of the headlamps based on your car load to its height to avoid blinding oncoming traffic. While Mazda never compromises on style, you can enjoy the sunroof with power slide and tilt glass* through the city and country roads. *Sunroof is standard on the Astina model only.

AUTO FOLD OUT MIRRORS

INSTINCTIVE TECHNOLOGY

Every piece of driving technology has been honed to provide an unparalleled sense of control and enjoyment. The Heads-Up Display has been carefully designed to present only the most relevant information in the simplest fashion. The meter cluster now features a vibrant 7-inch TFT display while on the steering wheel, switches are streamlined and better integrated for superior functionality and beauty.

CONNECTED ON THE GO

The latest Mazda3 Connect System features Wireless™ Apple CarPlay® with wired Android Auto™, meaning you can access your compatible smartphone's contacts, social media, music and more at the touch of the button. The Wireless Charger (Qi technology) lets you enjoy hands-free and in-motion mobile charging, with faster and more reliable connectivity.

REFINED TOUGHNESS

When beauty means richness of colour and complexity of texture, the interior of the next-generation Mazda3 range fulfils a refined toughness that will leave a great impression on the driver. A sure fit for a quality driving experience.
